DIGITAL THEATRE⁺

Technical Theatre
COURSE DETAILS

**Discover your schedule for
Technical Theatre Essentials!**

Each week, we'll be sending you an on-demand video on a key tech theatre topic to watch at any time that suits you. This will amount to a total of 4 hours of professional development.

1

Friday June 7: Get started with your free trial!

You'll get free access to thousands of teaching resources for your theatre lessons (as well as tools to support you with technical theatre topics!) Check out the intro session to discover the best resources to get started.

2

Friday June 14: Lighting

You'll receive your first technical theatre session on Lighting.
  - Tips for using lighting to enhance your productions.
  - Budget-friendly lighting solutions and DIY hacks.

3

Friday June 21: Sound

Your second session on Sound.
  - Ideas for storytelling through creative sound design.
  - Utilising affordable audio equipment and software.

4

Friday June 28: Costumes

Your third session on Costumes.
  - Tips for sourcing costumes on a tight budget.
  - Support students in using costume elements to boost character development.

5

Friday July 5: Make-up

Your fourth session on Make-up.
  - Essential make-up techniques for stage performers.
  - Budget-friendly make-up products and application tricks.

6

Friday July 12: Props

Your fifth session on Props.
  - Tips for creating realistic and impactful props on a limited budget.
  - Safety considerations and best practices for prop management.

7

Friday July 19: Set Design

Your sixth session on Set Design.

  - Tips to easily create effective set design.
  - Budget-friendly materials and set-building techniques.

8

Tuesday August 6 - 11:30am EST: Let's wrap up!

At the end of the course, there will be a live final session where we will review the course outcomes, discuss any final questions, and invite you to request a certificate of attendance if you need one.
